Annual Report of the Director
of Public Instruction in the Bombay
Presidency for the year 1909-10.

Educational Department.

No. 2280.

Bombay Castle,

26th November 1910

— Extract para 10 from the above Resolution.

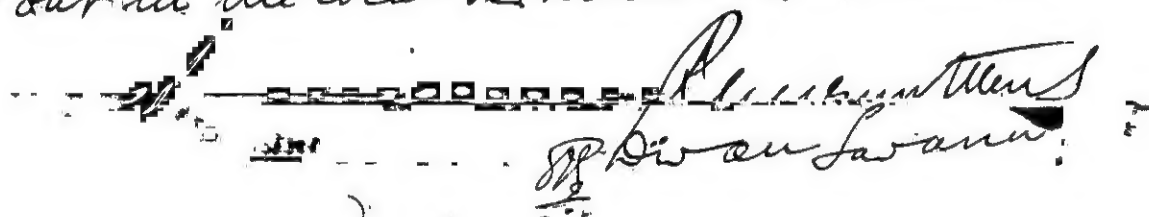

"10. The Director of Public Instruction has
Special Classes } discussed at considerable length
the needs of the Muhammadans, & he
shows that the Muhammadan community have no
reason to complain that Government have
not endeavoured to give full encouragement to
them in promoting education. The figures demonstrate
that the community is taking an increasing
advantage of the facilities offered. At the same
time the difficulties connected with the teaching
of two Vernaculars have not been completely
solved, & it is a question whether it would be for
the educational advantage of the community
frankly to discard Urdu in favour of the local
Vernacular as the compulsory language, leaving
those who desire it, to add the accomplishment of a
literary knowledge of Urdu.

"Attention continues to be paid to the educational needs of other special communities. The attendance of aboriginal & hill tribes has risen steadily, while the wants of the depressed classes have met with increasing consideration from municipalities & local boards."

I have the honor to acknowledge the receipt of your letter of the 19th inst. in relation to the proposed inclusion of the Hindustani language in the curriculum of studies for primary schools. In compliance with your request, I have the honor to submit to you the opinion that, in view of the fact that the Hindustani language cannot claim for itself as much importance as to stand on a par with the English language which is the recognized language of the district, in the curriculum of studies for primary schools it should have a place only of proportionate importance, by which I mean to say that in big high schools arrangements may be made for teaching it as a voluntary subject for Mahomedan boys and for others who would have a knowledge of it.

Some such arrangement in the Local
Panjab School here instead of being
detrimental to the best interests of the
Mahomedan Community, would no doubt
facilitate their progress in education
and bind them closer to other commu-
nities in the bargain. Moreover, they
would facilitate the whole working of the
Educational Department and would
ensure a better and more direct
link of connection between Primary
and Secondary Education.

which alone the Urdu Schools of Savan

F. L. A. School Savannu 5th August 1915.

Returned with Compliments.

Mr. Farokhi, experience has shown, is not likely to improve himself by taking pains. Physical debility and untoward circumstances rather come in his way. Experience alone should work improvement which he, therefore bound to be slow. The U/S would have no objection to placing a better hand in his stead provided that he knows Persian.

himself by taking pains. The undersigned is
therefore of opinion that he should be dis-
missed from service and a qualified hand
